Schaeffler Group in Brazil is awarded "Quality Achievement Performance Certificate" by Toyota
Award for high quality

Toyota Mercosur (Toyota South America) has once again presented an award to the Schaeffler Group for outstanding quality. During the "8th Mercosur Toyota Achievement Conference", Toyota's conference for suppliers in South America, Schaeffler Brazil received the "Quality Achievement Performance Certificate".

"We are very proud of this award", says Ricardo Reimer, Managing Director of the South American region in the Schaeffler Group. "At the same time, it is a challenge, since it is our aim to continuously exceed the high expectations of our customers in terms of innovation or quality".

The "Quality Achievement Performance Certificate" from Toyota South America ranks among several other awards that are testimony to the recognized excellence of the Schaeffler Group's products and technologies. Last year, for example, the Schaeffler Group received the "Achievement Award" from Toyota's global organization.
